Professor M. L. G. Redhead,
Department of History and Philosophy of Science,
King's College, London,
Chelsea Campus,
Manresa Road,
London SW3 6LX.

Dear Michael,

Thank you for the re-written version of your and French's paper, "Quantum Physics and the Identity of Indiscernibles", which I accept. I will have it set as soon as Oxford University Press will accept it so that we have some time to iron out any difficulties with the formalism.

I enclose the sheet on copyright - can you arrange this with French?

Yours sincerely,

V Gladman
